

## Box Hill to Leatherhead walk

Short, 2 steep climbs and the view from Box Hill in the morning, and a gentle river valley after lunch

### River Mole, Juniper Top & White Hill

**Length** 11.5km (7.1 miles), 3 hours 30 minutes. For the whole outing, including trains, sights and meals, allow at least 6 hours 30 minutes.

**Toughness** 7 out of 10.

**OS Maps** Explorer 146 or Landranger 187. Box Hill & Westhumble Station, map reference TQ 167 518, is in **Surrey**, 5km south of Leatherhead.

**Features** This is a short but hilly walk that's close to London. A strenuous morning with Box Hill (views!) and White Hill before lunch in a pretty hamlet. After lunch, gentle fields, or a rural or hilly options.

The route starts by crossing the River Mole on stepping stones (or detouring if these are under water), before going steeply up steps on the North Downs Way to the top of Box Hill (NT, Visitor Centre, and lots of Box trees!), to enjoy views out over the valley. The route then follows Box and Yew woods before you drop down Juniper Top, which also enjoys fine views.

There is then a second very steep climb up White Hill onto Mickleham Downs and down to lunch in the pretty village of Mickleham at one of its two pubs. The 2 steep climbs can be slippery at times.

After lunch, the route has a very different character. It is flat, along the River Mole valley, through Norbury Park, into the centre of Leatherhead.

For a more rural feel, **there are 2 highly recommended options below.**

#### Walk Options

### Shortening the walk

From Mickleham, the lunch stop, TFL bus #465 goes north to Leatherhead and Kingston, or south to Dorking (1/2 hourly, hourly on Sundays). It accepts Oyster Cards.

### Boxhill Circular highly recommended

After lunch in Mickleham, instead of walking to Leatherhead along a flat valley bottom, you could loop back to Box Hill station. The Stepping Stones pub is nearby for tea. Both routes return on the other side of the Mole valley through Norbury park.

- The easier route, still very rural, returns along the river and the rail line.
- The harder route, climbs the ridge on other side of the valley, with fine views down into it.

### Leatherhead to Boxhill reversing the walk

An easy start from Leatherhead, with 2 long climbs, and 2 very steep descents after lunch. There is 'Stepping Stones' pub near Boxill station for tea. Directions are at the end of this document. Obviously, take a train to Leatherhead for this option.

<b>History</b>	<p><b>Box Hill &amp; Westhumble Station</b> was built in 1867 in polychrome brick with stone dressings, as part of an agreement with the landowner that it should be 'of an ornamental character'.</p> <p><b>Box Hill</b> derives its name from the box trees there; yew trees are also found on its chalky slopes, with beech and oak up on top where the ground is clay and flint. It is 172 metres above sea level, contains Bronze Age burial mounds. Daniel Defoe described scenes of drinking, dancing and debauchery on Box Hill; Jane Austen placed the picnic scene in <i>Emma</i> here; John Keats climbed Box Hill by moonlight whilst composing <i>Endymion</i>; and John Logie Baird conducted his TV experiments from the summit. The area was given to the nation by Leopold Salomons of Norbury Park in 1914 and is now in the care of the National Trust. Box trees used to be in demand for making woodcut blocks and mathematical rulers – boxwood is heavy and does not float in water.</p> <p><b>St Michael &amp; All Angels Church</b>, Mickleham, has Saxon and Norman origins and was renovated by the Victorians. Its chancel is noticeably out of alignment with the nave – 'a weeping chancel, to suggest the head of Christ leaning on the cross'.</p> <p>The poet and novelist <b>George Meredith</b> lived at Flint Cottage in Mickleham.</p> <p>The <b>River Mole</b> is thought to have got its name from a tendency to disappear underground in dry weather near Dorking. It rises near Crawley in Sussex, to join the Thames near Hampton Court.</p> <p><b>Thorncroft Manor</b> was completed in the 1770s when Capability Brown worked on the gardens, creating a bridge and island on the river. It was used by Canadian troops during World War II.</p>
<b>Travel</b>	<p>Take the train nearest to <b>09.45am</b> from <b>Victoria</b> Station to <b>Box Hill &amp; Westhumble (Horsham service)</b>. Journey time 50 minutes. (2017 - the best train is the 09-31am service). There are six trains an hour (four on Sundays) back from Leatherhead to Victoria or Waterloo. Journey time about 45 minutes. From Box Hill there are usually two trains an hour. Buy a day return to Box Hill &amp; Westhumble.</p>
<b>Lunch</b>	<p>For those in need of an early cup of coffee or tea, you can stop at <b>Denbies Wine Estate</b> restaurant and visitor centre (tel. 01306-876616) within 1 km of the start of the walk.</p> <p>For late starters the <b>Smith and Western bar grill</b> (tel. 01737-841666), close to the start, at the summit of Box Hill can be used as a lunch stop.</p> <p>You have a choice of <b>two recommended pubs in Mickleham for your lunch stop</b> and both are very popular, so try to plan your arrival well before 1 pm.</p> <p>The first is the <b>Running Horses</b> pub (tel. 01372-372279) on Old London Road, opposite the church. The pub serves an excellent choice of main meals and deep-filled sandwiches and has a log fire in winter. The pub's management likes walkers to take off their walking boots, so please comply.</p> <p>The second pub, the <b>King William IV</b> freehouse, (tel.01372-372590), is much smaller, perched on a hill above the A24. It also serves good food and good beer and being small (40 covers inside), is cosy. It has a covered outdoor area for summer dining. Groups of more than six should try the Running Horses first.</p>
<b>Tea</b>	<p>The Swan Shopping Centre in the centre of Leatherhead has a <b>Costa Coffee</b> shop. There is also a <b>Starbucks</b> coffee shop in the High Street. Near the upper entrance to the shopping centre is <b>Annie's Tea Room</b> (tel. 01372-373399), open 8 am to 5pm, closes at 2pm on Sundays. At the top of Bridge Street is <b>Soulinnis</b> coffee shop and eatery (tel. 01372-386108) (closed on Sundays).</p> <p>There are a number of pubs in Leatherhead, including a Wetherspoons, for those who prefer a stronger drink at walk end.</p> <p>If finishing your walk back at Box Hill, you have the choice of the <b>Stepping Stones pub</b> or <b>Pilgrims Cycles</b> in the station forecourt, or <b>Denbies Wine Estate</b> restaurant.</p>
<b>Updates</b>	<p>No Major Changes. This edition November 2017. Some post markings changed on descent from White Hill to Mickleham.</p> <p>[Pre 2011 Edition] Use the online version. In the [morning, the original route in the pre 2011 editions of the TO Book took you down Juniper Bottom in a valley to White Hill car park. The preferred route now is down Juniper Top, which enjoys lovely open views.</p>

**Help Us!** After the walk, we would love to get your [feedback](#)

## Walk Directions

The [numbers] and sketch map they refer to, is only in the book.

1. **[1]** Coming out of **Box Hill & Westhumble** Station, *turn left* up the concrete steps, your direction 345°. In 30 metres *turn left* over the bridge to cross the railway line, your direction 295°.
2. Carry on uphill on this main road, Chapel Lane. In 25 metres you pass an arch gateway on your right-hand side with its plaque dedicated to Fanny Burney, diarist and novelist, and the timber-framed Westhumble Chapel. Carry on up the road and in a further 30 metres you *fork left* by Chaucer Cottage on a tarmac path which runs parallel to the road at its right-hand side.
3. In 115 metres you rejoin the main road, passing Pilgrims Way on your left-hand side. **[!]** In a further 25 metres take a signposted although somewhat concealed public footpath *left*, between fences, gently downhill, your direction 220°.
4. In 150 metres cross a tarmac lane by a house called Kearsney, to carry *straight on*, now on a narrow path between a hedge and fence.
5. In 200 metres go through a wooden kissing gate and straight on, across a field. In 45 metres go through another wooden kissing gate. In 15 metres, by a four-armed footpath sign **[2]**, with a large vineyard ahead of you, *turn left* on a car-wide way, signposted North Downs Way.
6. For elevenses at **Denbies**, instead of turning left, *cross over* this path and in 15 metres go through a wooden swing gate to keep ahead along a path between vines, your direction 170°. In 280 metres, where this path meets a main access road, turn left to Denbies visitor centre and restaurant. After elevenses retrace your steps to the junction with the North Downs Way.
7. Continue on the North Downs Way, gently downhill, ignoring paths off. In 300 metres go through a wooden swing gate to the left of a wooden farm gate. The track is now a tarmac lane. In 65 metres go under the railway bridge. In 150 metres go through a gated entrance (or if closed, go through the high metal gate to the right of the main gates). In a further 15 metres cross – with care – both two-lane carriageways and the central reservation of the busy A24 road, slightly to the left, to pick up the continuation of the North Downs Way straight on, by a National Trust sign for Box Hill and Stepping Stones, down into a car park area. At the other end of the car park, you fork right, by a low concrete marker, towards 'Stepping Stones', to pass through low wooden traffic blocking posts, your direction 115°.
8. Carry on, straight down. In 100 metres go over the **River Mole** on seventeen **stepping stones**. Carry straight on the other side of the river, on the main path, your direction 120 degrees. (But if the river is running high, and there is a danger of its flooding and covering the stepping stones, retrace your steps to the car park. Here take the left-hand fork, following the direction of a low concrete marker towards 'footbridge', to the immediate right of an Information Panel on the Stepping Stones. Having crossed the bridge, turn right and follow the path by the river for 150 metres to return to the stepping stones – but now on the eastern side of the River Mole.)
9. In 120 metres you ignore a fork to the left. In 60 metres you start *going up steps* following the North Downs Way acorn signs on footpath posts and keep on following the main path. In 70 metres - your way having swung to the left - ignore the path ahead and take the long flight of steps to the *left*, steeply uphill, your direction 50°.
10. Follow the acorn signs as you continue steeply up another five flights of steps. At a T-junction, near the top of the hill, *turn right* through a wooden swing gate (usually locked open), and keep ahead, your direction 120 degrees, with a fine view over Dorking and the Mole Valley below and to your right.

11. Keep on the main path along the ridge, gently uphill, ignoring ways off. There are several bench seats on your left for those in need of a rest after the energy expended on the steep climb up Box Hill - and to enjoy the view. In 225 metres you come to the **stone memorial** and lookout point [3] to **Leopold Salomons** of Norbury Park, who gave Box Hill to the nation in 1914. There is a trig station pillar just below the lookout which has fine views over Gatwick, Leith Hill and Hindhead. 65 metres past this lookout point, *fork left uphill* by a multi-branch oak tree on your right-hand side, to follow the direction of a one-armed footpath sign on a bearing of 35°.
12. In 110 metres *bear right* with the path (there is a car park and a road on your left-hand side). Keep *straight on*, ignoring all ways off, following North Downs Way acorn posts.
13. In 225 metres go through a wooden swing gate. In 110 metres go through another. *Keep ahead* as the path winds through woodland, ignoring ways off, following acorn signs. [!] In 230 metres *turn right* by a footpath post with acorn sign, your direction 150°, to go down four steps and up five steps on the other side. In 30 metres go down four steps to an earth car road crossing your path. *Turn left uphill*, your direction 70°.
14. In 40 metres this brings you up to the **Smith and Western** bar and grill [4], a possible elevenses or early lunch stop. Walk through its car park and *turn left* onto a road. In 20 metres *turn right* at a signpost bridleway, your direction 325°, into **Ashurst Rough** (so marked on the OS map).
15. Ignore all ways off and keep on the main path, initially to the edge of the wood then through the wood, gently downhill. In 400 metres cross a car-wide earth road and in a further 15 metres you come to a four-way path junction.
16. The new, preferred route, detailed below, heads to Juniper Top. The original TO Book route took you down Juniper Bottom, as follows: go straight on at the path junction, and keep ahead, downhill, on an initial bearing of 320°, through Happy Valley - mossy woods and lichen-covered trees. You descend Juniper Bottom, ignoring all ways off, and after 1.4 km you pass a gate on your right-hand side. Keep ahead, in 45 metres coming to the start of White Hill car park. Walk through it to Headly Road. Continue from point [5] below.
17. At this path junction *turn right*, your direction 20°, in 30 metres joining a path from your right by a footpath post. Keep ahead, now on a gravel and earth road, gently downhill, through woodland, and ignore all ways off.
18. In 800 metres go through a wooden swing gate to the right of a wooden field gate and come out onto **Juniper Top**. Keep ahead through light scrub and in 100 metres *bear left* on a broad, grassy way, your bearing 300°.
19. Descend Juniper Top, enjoying fine views ahead. In some 500 metres the grassy path narrows to an earth and stony path and in a further 100 metres go through a wooden swing gate to the left of a wooden field gate, with a three-way footpath sign to your right. *Turn right* to join a track, your bearing 330°, to pass in 30 metres a Box Hill Notice Board. In a further 15 metres go through White Hill car park to cross the Headley Road [5].
20. Follow the public footpath sign directly ahead on the other side of the road to climb steeply up the steps of **White Hill** (so marked on the OS map).
21. Beyond these steep steps, continue ahead, still steeply uphill, and then in 60 metres the path bears right and becomes less steep. In 150 metres, the path forks, with a bench to your left and a footpath post on your right with a "Box Hill Hike" disc. Here take the *left fork* (almost directly ahead) on a bearing of 45°, through woods. In 30 metres, with the remains of a metal fence post on your right, *bear left*, gently uphill. In 25 metres, by the remains of a fence's metal corner post on your left, and with a footpath post with a "Box Hill Hike" disc on your right, keep ahead. In a further 15 metres, at a path T-junction, *turn left*, your direction 330° onto a path which soon heads steadily downhill through light woodland.
22. In 200 metres you come to a car-wide bridleway crossing [6] with two footpath posts with marker discs directly ahead of you.
23. Your way ahead depends on which pub in Mickleham you target for lunch.
24. **To go direct to the King William IV pub** (by-passing Mickleham village and St Michael's church): *Turn right* at the car-wide bridleway, your direction 20°, gently uphill on a chalky track, passing on your right a National Trust Mickleham Downs sign. In 100 metres a path joins from your left-hand side. In a further 130 metres, at a path crossing [!] take an indistinct path on your *left downhill*, your direction 300°. In 65 metres, the path swings left and a path joins from the right. The path descends more steeply now and in 200 metres it narrows and starts to descend steeply through brush. In a further 150 metres cross a main path junction and keeping ahead, *descend steps*, in 80 metres coming to the entrance to the **King William IV pub** on the hillside on your left-hand side. After lunch, turn left down steps to the un-made up road, Byttom Hill. *Turn left*, downhill, to the A24 road, where you turn left for 200 metres, to cross the A24 and re-join the route below.
25. **To go to the Running Horses pub and St Michael's Church:** At the car-wide bridleway crossing [6], *cross over*, to continue *straight on*, downhill, in the direction of the Box Hill Hike disc, due west. The path becomes steeper as you descend through woodland. In 150 metres go between footpath posts and take the *left-hand fork* in the path, downhill, your direction 250°, now

close to the left-hand edge of the wood. In 170 metres you pass a tennis court on your right-hand side. In 80 metres cross a stile to join a gravel driveway towards the church. In a further 120 metres you *enter the churchyard* and in 40 metres, at the other side of the churchyard, you *turn left* towards the front door of **St Michael & All Angels Church**. Opposite the church is the **Running Horses** pub, one of your lunch stop options. Next door is a convenience store if you wish to purchase refreshments for a picnic. Coming out of the pub after lunch, *turn left* onto the Old London Road, which you follow down, passing Box Hill School on your left-hand side, to come out to the A24 road.

## 26. Both routes continue

27. Cross both carriageways and the central reservation with care, slightly left, to pick up a tarmac lane bridleway ahead. [!] (Note: an alternative route to the King William IV pub is to turn right down the A24 for 200 metres, to turn right up Bytton Hill to the pub on your right-hand side.)

28. Cross the **River Mole** on a humpback bridge, your direction 345°, into **Norbury Park [6A]**.

29. *The 2 Boxhill via Mickleham Circular Options starts here.*

30. Ignore all ways off and in 400 metres you pass Norbury Park Farm on your right-hand side. In 50 metres *fork left*, your direction 300°, on an earth car road.

31. In 40 metres go through a wooden kissing gate to the left of a metal fieldgate and continue straight on. In a further 215 metres, you are back alongside the River Mole on your right-hand side. You more or less follow the river all the way to Leatherhead. In more detail: When you see a cottage 90 metres ahead of you on your left-hand side, climb over a low wire fence on your *right-hand side [7]* and follow the river on your right-hand side for 40 metres until it bends off to the right. You can see, straight ahead of you, a fieldgate on a lane (which you would have come to if you had simply gone to the cottage and turned right, by a footpath sign). Head towards this fieldgate, your direction 330°.

32. In 240 metres you go through a wooden kissing gate to the right-hand side of the fieldgate, to continue on the lane.

33. In 95 metres carry *straight on*, along a path near the river, your direction 15°. In 400 metres you exit this large field by a kissing gate (with a fieldgate to its left-hand side). Ignore the path to the left and carry *straight on*, with the river on your right-hand side.

34. In 30 metres you pass a **River Mole Local Nature Reserve Notice Board** and in 50 metres go over a metal pipe barrier and then onwards under the concrete bridge carrying the A246 [8].

35. In 45 metres ignore a fork to the left. In a further 85 metres, go through a wooden kissing gate with a metal barrier on its right and with a vineyard on your left-hand side. In 20 metres *bear right* with the path and in 30 metres you pass a bridge carrying pipes. In a further 320 metres, you go through a metal kissing gate (with a metal barrier to its left-hand side). In 20 metres you come to an earth car road and by a four-armed footpath sign, you *turn right* on the road (now surfaced) signposted Gimcrack Hill, your direction 65°. In 175 metres you pass the entrance to **Thorncroft Manor** on your left and you are back alongside the River Mole.

36. In 100 metres, 5 metres before a bridge, by a three-armed footpath sign, you *go left*, signposted Town Bridge, through a wooden barrier and onto a stony and gravel path, alongside the River Mole on your right-hand side.

37. In 20 metres you pass another River Mole Local Nature Reserve Notice Board and in 400 metres, yet another. In 120 metres *turn right* over the town bridge, your direction 60°. Go over a mini roundabout and carry straight on up Bridge Street, passing the Running Horse pub on your left as you head into **Leatherhead**. At the top of Bridge Street you pass **Soulinnis** coffee shop and eatery on your right, a possible tea stop. Bear slightly right into the pedestrianised High Street and in 45 metres *go through* the lower (main) entrance to the Swan Shopping Centre on your left. In 80 metres you come to **Costa Coffee** shop, another possible tea stop, on your right-hand side (**Starbucks** and **Annie's** are further up the High Street and nearer the upper entrance to the shopping centre).

38. Coming out of Costa Coffee, exit the shopping centre northwards through the alleyway, keeping Sainsbury's on your right-hand side. In 55 metres go up steps on to the main road (the A245).

39. Cross this A road, slightly to the left, to pick up a narrow tarmac lane (Middle Road) and *go straight on upwards* between houses, your direction 330° (with house No. 4 immediately on your right-hand side).

40. In 100 metres you come to a tarmac road T-junction where you *go left*, your direction 230°. In 70 metres, at the far end of the car park, *turn right*, your direction 300°, with a large building just ahead of you. In 15 metres you come to a public garden (**King George V Memorial Gardens**) where you *take the right fork*, a tarmac lane, downhill.

41. In 65 metres take the second fork right, your direction 25°, now parallel with the main road below, and still within the public garden.

42. In 80 metres exit the public garden through brick piers and down four steps, to come down to the main road which you cross with care to *go straight on*, your direction 290°, on Randalls Road.

- In 120 metres, just before a railway bridge, *turn right* to go to **Leatherhead Station**, your direction 15°. After a further 70 metres, go under the railway lines to reach platform 1 for trains to London (which go back to Victoria or Waterloo).

## Boxhill Circular via Mickleham and Norbury Park Options

Instead of continuing north along the flat valley bottom and farmland to Leatherhead, these 2 more attractive routes takes you back to Box Hill station. One goes along the flat valley bottom parallel to the railway line and river. The other climbs up the ridge on the other side of the valley which has a lovely view of the valley below, before descending back down through a pretty wood to the train station. About 200m past Box Hill Station, and gently downhill, is the very pleasant Stepping Stone pub.

- After lunch, continue as above, and cross the A24 and River Mole, to point [6A].
- In 50m, turn left onto a bridleway.
- In 100m the path enters a wood; you come to a signpost, with a path off to your left. Here you have a choice.
- The Valley Option**
  - Fork left through wooden barriers.
  - In 400m the path crosses the railway and in another 400m a path merges from the right. Keep on the main path, ignoring a signpost 'Westhumble 1¼' and other ways off.
  - In 1km, fork left downhill (where the right fork goes uphill).
  - In 400m the path leaves the wood; continue along the right-hand field edge. In 600m a footpath merges from the left.
- The Hill Option**
  - Continue straight on uphill, eventually passing a mobile phone mast to reach a signpost by a wooden fence near the top of the hill.
  - Detour left to a pretty viewpoint indicated by the signpost, then return to this point.
  - Continue, now following the wooden fence, keeping it on your left, passing a lumber yard, and eventually reaching a viewpoint on the far side of Norbury Park House which the fence surrounds.
  - After the viewpoint, continue along the path. At a sign for Druids Grove, turn left down a few steps. At the bottom, go right.
  - Continue, joining a lower path, then, turn left at a junction, downhill.
  - Continue, coming out into a field, keep to the right hand side of the field, until the corner.
- Both Routes Continue**
  - Continue up to a road. Turn left, cross the railway bridge. The station entrance is on your right.
  - For the pub, continue straight on for 200 metres down this road.

## Leatherhead to Boxhill

This is the main walk in reverse, with a gentle start and a hilly finish. Lunch is the same, but tea is at the Stepping Stones pub near Boxhill station, or at Denbies, or at Pilgrms Cycles.

**Travel** : take the train nearest to 10-30am from Victoria to Leatherhead (2017 - the service is at 10-31am from Victoria).

**[Numbers refer to the map in the TOCW book]** – in reverse from [8] to [1]

- Coming off platform 2 at Leatherhead Station, turn down steps out of the station and *turn right* down Station Approach, your direction 195 degrees.
- In 70 metres, *turn left* along Randalls Road, your direction 90 degrees. In 120 metres you cross, with care, the main road (Kingston Road) and go up four steps and enter a public garden (**King George V Memorial Gardens**), through brick piers. Head up on one of the tarmac paths to the top right-hand corner of this public garden, where in 130 metres, you *turn left*.
- Exit the public garden and keep ahead for 15 metres, with a car park on your left-hand side. At a road (Upper Fairfield Road), *turn left*, your direction 50 degrees. In 70 metres, *turn right* down the narrow Middle Road, your direction 135 degrees.
- In 100 metres cross the busy A 245 road slightly to your left to go down steps to enter the **Swan Shopping Centre**. Keep ahead for 35 metres, then bear left, keeping Sainsbury's on your left-hand side, then ahead, passing on your right-hand side in 20 metres **Costa Coffee**, a possible "Elevenes" stop. Continue ahead through the Centre, your way ahead becoming Swan Mews, and in 50 metres you exit the upper entrance to the Centre to *turn right* onto the pedestrianised High Street.

5. In 10 metres you pass **Annies** on your right and in 60 metres **Starbucks** on your left. Continue down the High Street for a further 90 metres, pass some public art and the NatWest bank on your left, to *swing left* into Bridge Street, your direction 255 degrees, passing **Soulinnis** coffee shop and eatery on your left (another possible Elevenses stop). Go down Bridge Street, passing the Running Horse pub on your right-hand side, to go over a mini-roundabout, then over Leatherhead's Town Bridge. On the far side of the bridge, at a footpath sign to Norbury Park, *turn left* on a gravel path beside the River Mole, your direction 145 degrees.
6. In 120 metres you pass a **River Mole Local Nature Reserve** Notice Board on your left, and in 400 metres, still beside the river, you pass another similar notice board. In 20 metres, go through a wooden barrier and *turn right*, onto a surfaced way, by a three-armed footpath sign, ignoring a bridge 5 metres to your left. In 100 metres you pass the entrance to **Thorncroft Manor** on your right-hand side. The way swings right then left and in 175 metres, by a four-armed footpath sign to Norbury Park, *turn left*, in 20 metres going through a metal kissing gate with a metal barrier to its right, your direction 160 degrees.
7. Proceed along a path by the left-hand edge of a large field (with unkept vines). In 320 metres, having converged again with the River Mole on your left, you pass on your left a bridge over the river carrying pipes. In 30 metres *bear left* with the path and in 20 metres go through a wooden kissing gate (with a metal barrier to its left-hand side).
8. In 120 metres *go under a concrete bridge carrying the A246 [8]* then onwards over a metal pipe barrier. In 50 metres you pass another River Mole Local Nature Reserve Notice Board on your right.
9. In 30 metres you pass through a field boundary and go through a wooden kissing gate, to the left of a wooden fieldgate, to continue ahead, ignoring the path to the right, your direction 160 degrees, now on a grassy path along the left-hand side of a large field with the river down to your left.
10. In 400 metres the field ends and you continue ahead, now on a farm lane, gently downhill, and in 95 metres *go through* a wooden kissing gate with a metal fieldgate to its right-hand side and *turn half-left*, to cross a field, your initial bearing 150 degrees (*you are now cutting off a corner of the lanes ahead and left – also official footpaths*). In 240 metres the path bears left with the river and in 40 metres climb over a low wire fence, to join a lane, where you *turn left*. [7]
11. Keep ahead down this farm lane, your general direction 120 degrees. In 250 metres, go through a wooden kissing gate to the right of a metal fieldgate and in a further 40 metres, *fork right* onto a concrete-surfaced lane, passing in 50 metres **Norbury Park Farm** on your left-hand side, your direction 165 degrees.
12. Proceed down the lane, which eventually swings right then left, in 400 metres to cross a humpback bridge over the **River Mole**, to cross, with care, both carriageways and the central reservation of the busy A24 road, slightly to its left. **Your way ahead depends on which pub in Mickleham you plan to take luncheon .**
13. **To go to the King William IV pub** (suitable for small groups): *turn left* down the A24 for 200 metres. Just before you come to Frascati Restaurant *turn right* up Bytton Hill for 70 metres until you come to the King William IV pub, perched on a hill up on your right. Go up steps to the pub's entrance. After lunch, coming out of the entrance, *turn right* to continue up the footpath by the side of the pub, your direction 110 degrees, and keep ahead, uphill, for 80 metres until you come to a path main crossing. Here *turn right*, on a bearing due south, now on a level path. In 200 metres ignore a path down to your right. In 70 metres swing right with the path, then left, and in 50 metres go through a gate to the right of a metal gate, your direction now 250 degrees, to head down a tarmac road (Dell Close). In 100 metres you pass a village hall on your left-hand side and in a further 125 metres you reach the main road (Old London Road), where you *turn left*, to re-join the main walk directions.
14. **To go to the Running Horses pub** : having crossed over the A24, keep ahead, uphill, along the Old London Road, in 100 metres passing Box Hill School on your right-hand side. In a further 100 metres you come to the Running Horses pub on your right-hand side, with **St. Michael & All Angels Church** opposite. Next to the pub is a convenience store for those who wish to buy refreshments for a picnic.
15. Coming out of the pub, cross over the road and enter the churchyard through a gate: the church's entrance is opposite. Coming out of the church, take either path along its side, to exit the churchyard near its south-eastern corner (from the front of the church, its top right-hand corner) to go through a gate. *Turn left* up a gravel driveway and in 120 metres, *cross a stile* to the right of the driveway, to keep ahead, now uphill, along a path, your direction 70 degrees. In 80 metres you pass a tennis court on your left-hand side, and in a further 110 metres, uphill, where the path forks, *take the right-hand fork*, by a footpath post, your direction east. The path becomes much steeper and in 150 metres you come to a car-wide bridleway crossing [6] .
16. *Cross straight over*, with a **Box Hill Estate Notice Board** on your left, and in 200 metres, at a path junction and by a footpath post, *turn right*, gently downhill on a bearing due south. In 8 metres, by post No 6, keep ahead (slightly right). In 45 metres, with the remains of a fence's metal cornerpost on your left, turn right, your bearing now 225 degrees, through woods. In 45 metres come out into the open onto a path, with a bench on your right-hand side, and with post No 5 on your left. Keep ahead, slightly right, down the path.
17. In 150 metres the path descends to steps to go down, steeply, **White Hill** . Follow the long flight of steps downhill, taking care in slippery conditions, until you come to the bottom, to cross Headley Road [5] and enter White Hill car park directly ahead.

18. Walk through this small car parking area and 15 metres beyond it you pass a Box Hill Notice Board. In a further 30 metres you pass a National Trust Donation cairn on your left, with a three-way footpath sign and a wooden kissing gate, next to a metal fieldgate, on your left-hand side.
19. **Here the Book's directions (when reversed) take you up Juniper Bottom (Happy Valley) by keeping ahead along the track, for some 1.2 kilometres, gradually ascending through the valley. But a more enjoyable route with nice views (over your shoulder) is to go up Juniper Top, directions as follows**
20. *Turn left* off the track through the wooden kissing gate onto an earth and stony path, uphill, close to the field edge on your left. In 100 metres ignore a path to the left. The path now becomes a grassy path as you continue ahead, soon becoming a broad grassy way, your bearing 130 degrees, and you start to ascend along the ridge of Juniper Top. Stop from time to time to enjoy the views behind you: there are two benches en route for those in need of a rest. After 500 metres of steady ascent, *bear right* to head for the wooden gate in the top right-hand corner of this field.
21. Go through this wooden gate to the left of a metal fieldgate, and keep ahead along a gravel and earth track, gently uphill, your initial direction 145 degrees, ignoring all ways off. In 800 metres [!] you bear left at a path junction and you come to a four-way path junction (with another four-way junction 15 metres below on your right). Here *turn left*, your direction 100 degrees.
22. Keep to this broad path, gently uphill, ignoring all ways off through a wood ( **Ashurst Rough** ) then along its left-hand edge near residential property, for 400 metres, coming out onto road by a bridleway sign. Here *turn left* for 20 metres, then cross the road to enter the **Smith and Western** bar and grill's car park [4] . Walk through the car park, with the bar on your left, and *take the footpath in the right-hand corner*, passing a low pipe barrier, your direction 250 degrees.
23. Bear right down this path for 40 metres to reach a path crossing. *Turn right*, to go up four steps. In 30 metres go down five steps then up four steps on the other side, to a path junction by a footpath sign with a North Downs Way acorn sign. *Turn left*, your direction 245 degrees. Ignore ways off as you follow acorn signs and in 230 metres go through a wooden swing gate. In 110 metres go through another. Keep ahead, following acorn signs, and ignore all ways off.
24. In 225 metres *bear left* with the path (there is a car park and a road on your right-hand side), your direction 225 degrees. In 110 metres, the path descends to a path T-junction with a multi-branch oak tree opposite [!] *Fork right* , your direction due west.
25. In 65 metres you pass a trig station to your right and a **stone memorial and lookout point [3]** to Leopold Salomons of Norbury Park, who gave Box Hill to the nation in 1914. Keep ahead along this gravel ridge path, gently downhill, enjoying the fine views to your left over Dorking and the Mole Valley. In 225 metres at a path junction, [!] follow the acorn signs *to the left*, your direction 270 degrees, to start the steep descent off Box Hill.
26. Go down six flights of steps, steeply, taking care in slippery conditions, following acorn signs on the way down. Ignore a path off to the left at the bottom of the fifth flight.
27. Near the bottom, at the end of the sixth flight, ignore a path to your left and bear right, your direction now 300 degrees. In 70 metres go down a seventh (and final) flight of steps. In 60 metres you come to a path junction, where you take the left hand branch, straight ahead, to follow the path to the stepping stones. 120 metres you come to the banks of the **River Mole** , to **stepping stones** . ( [!] If the river is in spate and or the stepping stones are covered, return to the path junction 120 metres back and take the path to the footbridge, along the bank of the river for 150 metres to turn left over the footbridge, then turn left to rejoin the main walk directions in the car park).
28. Cross the stepping stones and in 100 metres go through a car park to come out on to the A24 road.
29. Cross both carriageways and the central reservation of this busy road with care, slightly to your left. Take the signposted North Downs Way ahead, a surfaced lane, in 15 metres going through a metal gate in the left-hand side of an estate gateway.
30. Continue up this lane, gently uphill and in 150 metres go under a railway bridge and in 65 metres the surfaced lane becomes a car-wide track. Go through a wooden swing gate to the right of a wooden farm gate. Continue along the lane, still gently uphill, and in 300 metres [!] you come to a main path junction with a four-armed footpath sign on your right. **For those going to tea at Denbies:**
31. *Turn left* , and in 15 metres go through a wooden swing gate, to keep ahead along a path between vines, your direction 170 degrees. In 280 metres, where this path meets a main access road, *turn left* to Denbies Visitor Centre and Restaurant. After tea, retrace your steps to the main path junction.
32. Back at the path junction, *turn right*, and in 15 metres go through a wooden kissing gate. Cross a narrow field and go through another wooden kissing gate in 50 metres. Keep ahead down a narrow path between a hedge and fence, and in 200 metres you cross an unmade road, to continue on a path immediately ahead, between fences, your direction 40 degrees.
33. In 150 metres you come out onto a main road (Chapel Lane), where you *turn right*. In 25 metres you pass Pilgrims Way on your right-hand side and soon after take the surfaced footpath on your right, which runs parallel to the main road, to rejoin the road in 115 metres.

34. In 30 metres you pass an arch gateway on your left-hand side with its plaque dedicated to Fanny Burney, diarist and novelist, and the timber-framed Westhumble Chapel. In a further 25 metres, cross the road bridge and turn right to **Box Hill and Westhumble** railway station. Cross over the railway's footbridge for trains back to London.
