## Hastings to Rye

### One Cinque port and two ancient towns

**Start:** Hastings station

**Finish:** Rye station

**Length:** 19.0km (11.8 miles). For a shorter variation, *see below* **Walk Options**.

**Time:** 6 hours. For the whole outing, including trains, sights and meals, allow at least 11 hours.

**Transport:** Trains go from Charing Cross, London Victoria or St Pancras (changing at Ashford) to Hastings; the fastest journey time is 1 hour 30 minutes. Take the nearest train to 9am. Trains back from Rye run once an hour, changing at Ashford; journey time 2 hours. Buy a day return to Rye. There is also an hourly bus service from Winchelsea to Rye. For those driving, park centrally in Hastings. Trains back from Rye to Hastings are hourly and take 20 minutes.

**OS Landranger Maps:** 189 and 199  
**OS Explorer Maps:** 124 and 125  
 Hastings, map reference TQ814097, is in East Sussex.

**Toughness:** 7 out of 10

**Walk Notes:** This rewarding walk starts with a fine clifftop coastal walk with steep climbs along the way. This section is the

most strenuous part of the walk. Lunch is at Pett Level, after which the terrain levels out, before leading up through the New Gate into Winchelsea for tea. After tea and just east of the town, you reach The Look Out, offering panoramic views across the whole of Romney Marsh and the Kent Downs beyond. From there it is down and along to Ferry Bridge, following an easy flat route north-east to Rye. It is worth trying to arrange this walk to coincide with a low tide at Pett Level (a few minutes after Hastings) at around 3pm. So that after lunch you may take a small detour 500 metres west along the beach from The Smuggler to see the 5200-year-old ancient drowned forest under Cliff End. In early 2014 there was a serious landslip at Ecclesbourne Glen (early on in the walk). Consequently there is now a (well signposted) diversion. Following periods of extensive coastal erosion along the cliffs to the east of Hastings dozens of footprints and trackways were identified and mapped by a team of researchers from Cambridge University between 2014 and 2018.

### Walk Options:

**a) Shorter Hastings circular walk:** You may reduce the length of the main walk to 9.5km (5.9 miles) by following the main route directions as given until [2]. Then follow the directions for this option at the end of the main walk text. This route goes past the Caves and the castle to finish at Hastings.

You could also reduce the length of the main walk by 2.4km by finishing at Winchelsea station.

## WALK DIRECTIONS

### [1] [Numbers refer to the map]

Coming out of **Hastings station**, go down *Station Approach*. After 100 metres go down some steps, after 30 metres cross *Devonshire Road* to turn right, cross *Middle Street* to take the next left to go down *Havelock Road*, your direction south. In 200 metres Havelock Road intersects with a six-way crossroads, four roads of which are pedestrianised. Veer left along *Wellington Place*, a pedestrian zone, your direction 100 degrees. In 160 metres you pass through a subway and 70 metres further on veer left to join the main *A259 coastal road*, your direction east.

After 250 metres fork left along *George Street* through Hastings old town. In 300 metres you come to the High Street. Cross over to join *East Street*, ahead and slightly to the right. After 90 metres cross over *The Bourne* and continue in the same direction, along *Rock-A-Nore*, with the tall black net huts away to your right.

[!] In 100 metres turn left up *Tamarisk Steps*, immediately before the *Dolphin Inn*. After the initial flight ignore a narrow flight of steps ahead to follow the steps round to the right to come out onto *Tackle Way*. Turn left and, in 25 metres, turn right up a long flight of steps to *East Hill*. At the top of these steps you reach a sign 'Welcome to Hastings Country Park – East Hill'. Turn right (past the entrance to the *East Hill* funicular railway on your right) to go up a short flight of steps.

If you are taking the **main walk** to Rye you now follow the cliff walk for [5.6km to Fire Hills at the end of Hastings Country Park \[3\]](#), which is clearly signposted by large wooden stubby footpath posts. [If you are taking the

**Shorter circular walk**, the route diverges from the coast at point [2] in the text below.]

In more detail: Head east with the coast off to your right, keeping to the lower route, your initial direction 80 degrees.

In 700 metres you start to go more steeply downhill, with an overgrown fence to your right. After 100 metres at a large stubby footpath post, turn right to go down some steps, your initial direction 80 degrees.

After 80 metres, at the bottom of the steps, you come out to a level; continue ahead to then go down a second flight of steps. 150 metres further on, at the bottom of the steps in the middle of the gorge, continue up a flight of steps to reach the top of the steps after 200 metres to go through a wooded area.

In 25 metres you emerge from the wooded area and veer right to reach a viewpoint after 25 metres. Turn left to continue along the coastal path, with a wooden fence on your right. Stick to the wider grassy path rather than the narrower one through some brambles.

In 750 metres you pass a large stubby footpath post (No. 8) on your left.

After 600 metres, ignore a fork to your left, to fork right through a wooded area, your direction 70 degrees. In 30 metres by a large stubby footpath post (No.12), fork right (*Firehills 1½ miles*).

After 100 metres you go down some steps. 100 metres further down these steps you reach a large stubby footpath post (No. 14) on your left, with a footpath arrow pointing left to 'Fairlight Glen (upper) ¼ mile, Fairlight RD picnic site 1 mile, North's seat 1¼ mile'. [2]

[At this point you can choose to take option a), the **Shorter Hastings circular walk** option. Follow the directions at the end of this main text.]

Otherwise, for the main walk, continue straight ahead downhill, your direction 130 degrees.

After 40 metres the path levels out. In 60 metres you commence a steep descent gradually emerging from a wooded area. After 150 metres, at the foot of the hill, you enter a wooded area. In 45 metres, at a footpath junction with a large stubby footpath post (No.16) on your left, follow a footpath arrow pointing right to Firehills, your initial direction 50 degrees. In 30 metres you pass by a hazard notice on your right warning about coastal erosion.

Continue uphill to eventually emerge from the wooded area to go up a wide path for 120 metres towards a bench. Turn left at the bench up a grass track. In 280 metres, at a footpath junction marked by a large stubby footpath post (No.17), turn right for Firehills, to go up some steps into another wooded area, your initial direction 50 degrees. In 80 metres, at the top of the steps, continue on the level to emerge from the wooded area after 20 metres.

In 200 metres you pass by a stone slab on your right known as 'Lovers' Seat' to enter a wooded area and go down some steps. In 100 metres at the bottom of the steps you emerge from the wooded area to pass a large stubby footpath post (No.18) on your right with a footpath arrow pointing ahead to Firehills, to go through a wooden kissing-gate.

After 140 metres of going downhill (ignore a left-hand fork footpath) as the footpath narrows and becomes steeper. In 200 metres you pass by a large stubby footpath post (No.21) on your left, with an arrow for Firehills pointing ahead, to enter a sparsely wooded area, your initial direction 60 degrees.

In 20 metres you cross a stream and start to go uphill and in 220 metres you go up some steps. In 40 metres, at the top of the steps, you reach a footpath junction, with a bench and a footpath post on your left. Turn right, following a

yellow arrow on the post, your direction 130 degrees.

In 500 metres go through a wooden kissing-gate to pass by a large stubby footpath post (No.24) on your left with a Firehills arrow pointing ahead, with a radar station up to your left. [If you are having lunch at the Coastguard Café, go uphill to pass by the right-hand side of the radar station to then go through a wooden kissing gate. Turn left along a car wide track and in 300 metres, at the end of a small car park, leave the road to go to the right of the Hastings Country Park Visitors Centre; up a path between two concrete bollards onto Coastguard Lane. [The Coastguard Café](#) is 150 metres further on the right. After lunch, re-trace your steps.]

Continue straight ahead and take the lower path, which forks downhill to the right.

In 120 metres the path levels out. After 750 metres you come to the end of Hastings Country Park to go through a wooden kissing gate. **[3]**

Follow the path between fences to come out onto a shingle road (Channel Way) after 100 metres, with houses and bungalows to your left.

In 250 metres you pass Gorsethorn Way on your left. After 260 metres, at a road junction, turn left down the tarmac *Shepherds Way*, your direction 350 degrees.

*In 120 metres turn right along Bramble Way.* After a further 120 metres you pass Blackthorn Way on your left and Heather Way on your right. In 75 metres turn left down Smugglers Way. After 170 metres at the bottom the road forks.

**(i)** For lunch at The Cove, fork left. In 120 metres at a T-junction turn right along Waites Lane to reach The Cove on your right after 50 metres. After lunch retrace your steps to the point where the road forks at the bottom and turn left along Lower Waites Lane.

**(ii)** Otherwise fork right along Lower Waites Lane.

In 250 metres you pass by Rockmead Road on your right. After 180 metres you pass by Cliff Way on your right with a sign 'Sea Road closed'. 40 metres further on you pass Primrose Hill on your left and 180 metres further on you pass Briar Close on your left.

**[!]** In 150 metres, *where the lane curves round to the left and Sea Road leads off up to the right, continue straight on through a narrow entrance onto a footpath*, passing a two-armed wooden footpath signpost after 10 metres, and turn right as indicated, your initial direction 120 degrees.

In 100 metres the footpath curves to the left. Follow the fenced-in footpath for 100 metres to come out with the cliff edge away to your right. Continue up the footpath, with a field fence on your left.

After 140 metres go up some steps. In 300 metres ignore a stile on your left and after a further 300 metres, at the end of the field on your left, go downhill along a narrow path.

Continue downhill, ignoring any turnings off for the next 450 metres to then *go down some steps to join a lane. Continue down for a few metres to a T-junction [4] and turn right onto a road*, your direction east. In 150 metres you pass some public conveniences on your right.

**[!]** After 15 metres, *where the road curves to the left, continue straight on to go up a driveway to the right of The Boat House. In 40 metres turn left*, marked by a wooden footpath signpost, to go up a small flight of steps and then down some steps.

In 50 metres you *climb up some steps to cross a beach rampart and turn left along the promenade* with the rampart on your left and a metal railing to your right.

After 220 metres you go through some sea defence gates to veer left, passing the fieldgate entrance to Pett Level caravan park on your left.

In 300 metres you pass by New Beach Club down to your left. *In a further 100 metres ignore a car-wide track veering down to the left towards the main road and continue along a narrow path with a grass slope on your left and the shingle beach to your right.*

**[!]** After 180 metres *turn left down the easy to miss steps to the road. Go over the road to continue ahead on a concrete path marked by a tall white post.*

After 30 metres you reach a three-armed footpath post and the Military Canal. Ignoring a bridge over the canal, *turn right along a footpath, with the canal on your left. Continue alongside the canal.*

In 100 metres you cross a stile to the left of a wooden fieldgate. After 550 metres, ignore a footbridge to your left at the canal junction. Continue along the canal in a northerly direction, crossing two more stiles to the right of metal fieldgates along the way.

In 1.2km you *reach a footbridge\* on your left (30 metres before a metal fieldgate). Turn left through a metal gate to cross over the footbridge. Then veer right for 20 metres to cross a concrete footbridge over the junction of the canal.* [\*If this footbridge is closed: Continue for 600 metres to then turn left over a car wide bridge, to head towards the far left-hand corner of the field, 200 metres distant, to then resume directions from [5].]

*Continue straight ahead for 120 metres to Wickham Cliff, (the old coastline), your direction north, where you veer right initially along the base of the old cliff on your left, to then veer right away from the old cliff, your direction 60 degrees, along a broad path, towards two adjacent mini pylon poles. In 500 metres just past the two adjacent*

mini pylon poles, turn left through a wooden fieldgate towards the upper left-hand corner of this field.

In 120 metres go through a wooden gate **[5]** and *turn right onto a lane*, your direction 60 degrees.

After 300 metres you pass through the **New Gate** of Winchelsea to continue up the lane. In a further 300 metres, *where the lane curves round to the right, take an unmarked footpath that forks off to the left*, your direction 350 degrees. In 200 metres at a footpath junction where the 1066 Country Walk crosses your path, *go over the stile on your right*, to join the 1066 Country Walk.

*Turn half left, diagonally up across the field, heading towards a stile 20 metres to the left of the remains of an old stone wall on the far side of the field*, your direction 20 degrees. (This gable is all that remains of St. John's Hospital).

*After 160 metres cross over the stile and road to turn right along the pavement into **Winchelsea***, with a stone wall on your left.

In 500 metres, having come into Winchelsea, you reach a crossroads. Go over to *enter the south-west kissing gate entrance* to St Thomas' churchyard, to visit the church of **St Thomas**. [Spike Milligan's grave: There's a tree in a fairly central position in the churchyard with a row of 3 gravestones in front of it – 2 larger stones on the left and a smaller Celtic Cross on the right, which is Spike's.]

*Coming out of the church, turn right for 80 metres to exit via the north-east kissing gate. Turn right* to go down the High Street for 50 metres to reach the **Winchelsea Farm Kitchen** on your right.

On coming out of the coffee shop, *turn left* to go back up the road for 50 metres to the crossroads and *turn right*. After 100 metres *turn left at a crossroads* to go up Mill Road, your direction 280 degrees. After 220 metres you *reach a T-junction with the main road. Cross over*

*to go along a lane*, passing a two-armed wooden footpath signpost on your right, indicating the 1066 Country Walk.

After 160 metres, where the lane comes to an end, go through a wooden gate between two fieldgates to follow a yellow footpath arrow *towards a fire beacon*, your direction 260 degrees.

After 140 metres you reach the **Look Out**, with the remains of Winchelsea windmill to the right of the fire beacon. *Veer right for 40 metres downhill to go through a wooden gate* and follow a yellow footpath arrow downhill through a cutting, your direction 300 degrees.

In 160 metres continue down the sunken path as it veers to the right, to then go through a wooden kissing-gate 30 metres further on at the bottom corner of the field. Continue straight ahead along the top edge of the field, with an embankment up to your right, your direction 20 degrees.

After 250 metres, at the corner of the field, go through a wooden gate and *over a footbridge*. In 30 metres go through a wooden gate and after a further 80 metres you come out onto a car-wide concrete track.

After 40 metres go over a stile (right of a wooden fieldgate). In 20 metres you *come out onto the main road and turn left. In 10 metres continue straight on, leaving the main road to go along a slip road* (signposted Winchelsea station), your direction 20 degrees.

After 200 metres *the road crosses Ferry Bridge. Immediately past the bridge on the right you reach a stile* with a metal footpath signpost. **[6]** [If you wish to cut the walk short then ignore this stile to continue along this lane for 600 metres to **Winchelsea station**.]

Otherwise, for the main walk, *go through a metal kissing-gate and turn half left to cut the corner of the field*, your direction 80 degrees. In 70 metres *cross over into the next field (not the*

*field on your left) and veer left, diagonally across this field, aiming for a wooden railed footbridge on the far side (also in the direction of Rye visible 3km), your direction 40 degrees. (However, depending on the time of year and the state of the field you may prefer to follow its left-hand edge all the way round to the footbridge.)*

In 260 metres *cross the wooden footbridge* into the next field and continue along in the same direction (40 degrees) across the field. In 120 metres you pass by the corner of a ditch stream on your right and veer slightly to the right (aiming just to the right of the peak of Rye) and continue across the field, your direction 50 degrees. In 200 metres you reach a bend in another ditch stream on your left to now go along the right-hand bank of this ditch stream.

After 220 metres turn left to *cross over a metal-railed wooden footbridge and veer slightly to the right towards a not too visible footbridge, your direction 40 degrees. (If you can't make out the footbridge or the path continue straight ahead aiming just to the right of the peak of Rye in the distance).*

After 50 metres a small embankment starts on your left. Veer left to continue along this embankment. In 250 metres you *cross over the metal-railed wooden footbridge and continue straight ahead, in the same direction (40 degrees). After 60 metres, with a metal fieldgate off to your left, go straight ahead and cross over a stile (left of a metal fieldgate) to continue with the ditch stream on your left.* In 500 metres you pass a tall wooden footpath post with a yellow public footpath arrow, indicating your direction ahead, with the ditch stream on your left.

After 180 metres you pass a wooden footpath post with a yellow footpath arrow, indicating your direction ahead. In 140 metres go over a stile to the right of a metal fieldgate, your direction 20 degrees. In 200 metres go through a (usually open) metal fieldgate to continue along a car-wide track, which curves to

the right just before it becomes tarmac after 250 metres.

In 240 metres you *come out to a main road. Turn left* to follow the main road round to the right to cross a road bridge over the river Tillingham after 60 metres. After 150 metres you reach Cyprus Place on your left.

*If you wish to head straight back to the station, turn left, your direction 300 degrees, and follow the road round to the right after 70 metres to reach a T-junction after 30 metres, with a level crossing on your left. Cross over the road, to reach **Rye Station** after 150 metres.*

However, Rye is a town well worth visiting. Cross over Cyprus Place to turn right along Wish Ward to head into the historic part of Rye. [For the Mermaid Inn after 80 metres along Wish Ward, turn left up Mermaid Street for 100 metres to reach the [Mermaid Inn](#) on your left.]
