

Leigh and Penshurst walk

The Eden valley, Penshurst Place and a rural pub for lunch.

Length	<p>Main Walk, from Leigh to Penshurst: 13½ km (8.4 miles). Three hours 15 minutes walking time. For the whole excursion including trains, sights and meals, allow at least 8 hours.</p> <p>Circular Walk, from Leigh: 18 km (11.2 miles). Four hours 25 minutes walking time.</p> <p>Alternative Walk, from Penshurst to Leigh: 15½ km (9.6 miles). Three hours 45 minutes walking time.</p> <p>Alternative Circular Walk, from Penshurst: 12½ km (7.8 miles). Three hours walking time.</p>
---------------	--

OS Map	<p>Explorer 147. Leigh Station (map reference TQ546462) and Penshurst Station (in Chiddingstone Causeway, TQ519467) are both in Kent, 4 km and 7 km W of Tonbridge respectively.</p>
---------------	---

Toughness	3 out of 10 (4 for the Circular Walk).
------------------	--

Features	<p>This is a group of walks to and from adjacent stations on the Redhill–Tonbridge line, all centred around the hamlet of Hoath Corner and its traditional rural pub: “all dogs very welcome...children must be kept on a lead!”. The link routes to and from Leigh station have been taken from the Leigh to Tunbridge Wells walk (1–15) and the Hever to Leigh walk (1–19), but the other sections are in less familiar Wealden territory.</p> <p>The Main Walk options start from Leigh station and head west through parkland to the attractive village of Penshurst. After crossing the River Eden there is a gentle climb from Salmans Manor to the lunch pub in Hoath Corner. The Alternative Walk options start from Penshurst station (almost 3 km north of its village, in Chiddingstone Causeway) and head south through low-lying farmland in the Eden valley to join the other route at Salmans Manor.</p> <p>From Hoath Corner all routes head north to another tiny settlement at Hill Hoath, where there is a choice of endings. You can either continue through the picturesque village of Chiddingstone and return from Penshurst station, or take a longer route looping back through Penshurst village to Leigh station.</p>
-----------------	---

Both Penshurst and Chiddingstone have interesting historic houses which you could visit, and all the routes go through at least one of these villages. **Penshurst Place** is a well-preserved medieval manor house with an attractive formal garden, the home of the Sidney family since the 16thC. It is open weekends from mid-February to March, and daily from April to October; admission is £12.50, or £10.50 for the gardens only (2020). **Chiddingstone Castle** is a castellated manor house rebuilt in the 19thC, containing an unusual collection of art and curiosities left behind by its late owner, Denys Eyre Bower. The grounds are usually open but currently the house is only open Sundays and a few weekdays from August to October; admission is £9.50 (2020).

The Wealden soil does not drain well and parts of the walk can be muddy even after moderate amounts of rain.

Walk Options	<p>In addition to the routes outlined above you could simply omit the outer loops on those walk options which feature a crossover design, making two very Short Walks. Either of these would be a good choice if you wanted to spend time visiting Penshurst Place.</p> <p>The short Alternative Circular Walk – which does not go through Penshurst itself! – has been included here for completeness. The Penshurst Circular walk (#300) contains some more satisfying circular routes from this station, the longer versions of which take in Bough Beech reservoir to the north of the railway line.</p>
Transport	<p>Leigh and Penshurst are adjacent stations on a branch line with an hourly service between Tonbridge and Redhill (through trains from London were withdrawn in 2018). Travelling from Charing Cross and changing at Tonbridge is usually 10–15 minutes quicker than going via Redhill. The most flexible ticket is an “Any Permitted” return to Penshurst, but you can buy a cheaper “Via Redhill” return to Leigh (Kent) if you will be going out and back on this route.</p> <p>If you want to finish the walk in Penshurst village, Metrobus 231 & 233 go via Penshurst station to Edenbridge in one direction and Tunbridge Wells in the other (Mon–Sat).</p> <p>If driving, there is no car park at Leigh station but roadside parking is available. There is a small private car park on the south side of Penshurst station where a sign says the charge is £3 per day.</p>
Suggested Train	<p>Take the train nearest to 10:00 from Charing Cross to Leigh for one of the Main Walks, or nearest to 10:30 to Penshurst for the Alternative Walks, changing at Tonbridge in both cases.</p>
Lunch	<p>The intended lunch pub for all but the two Short Walks is the attractive Rock Inn (01892-870296) in the hamlet of Hoath Corner (after 7½ km if starting from Leigh; 6¼ km from Penshurst). This out-of-the-way rural pub has some outside seating at the front and a small back garden. At the time of writing, however, it is only open at lunchtime on Friday–Sunday; it is also open on Tuesday–Saturday evenings but closed all day Monday. As with any small pub, call beforehand to check if it will be open (and serving food).</p> <p>On the walk routes which go through Penshurst you could get a pub lunch at the up-market Leicester Arms Hotel (01892-871617) or a light meal at the Porcupine Pantry (see below). However, this village is better placed on the two Short Walks and comes relatively early or late on the other walk options.</p> <p>On the walk routes finishing at Penshurst station you could stop for a late pub lunch in Chiddingstone at the Castle Inn (01892-870371), which reopened in April 2017 after being closed for nearly a year.</p>
Tea	<p>On the walk routes finishing at Leigh station there are two options for tea in Penshurst. In the centre of the village the Fir Tree House (01892-870382) tearoom has a large</p>

garden and is open from 2.30-6pm, but is closed on Mondays (except Bank Holidays, when it is closed the following Tuesday; it might also be closed on other weekdays in winter). A good alternative is the **Porcupine Pantry** (01892-870307), just outside the main entrance to Penshurst Place; it has indoor and outdoor seating and is open daily to non-visitors to 6pm.

On the walk routes finishing at Penshurst station the suggested tea place is the **Tulip Tree** (01892-870326) in **Chiddingstone**. Tucked away in a converted coach house behind the Chiddingstone Stores, this popular tearoom is open daily to 5pm. On the limited days when **Chiddingstone Castle** is open its equally good **Tea Room** (01892-870347) is open to non-visitors to 4.15pm.

If you are not in a hurry to catch a train back there are conveniently-placed pubs near both stations, both usually open all day. In **Leigh** the main route passes the **Fleur De Lis** (01732-832283) shortly before the station. In **Chiddingstone Causeway** the **Little Brown Jug** (01892-870318) is just across the road from Penshurst station.

Help Us!

After the walk, we would love to get your feedback

Walk Directions

Walk Map

All maps © OpenStreetMap contributors

Walk Options (Main | Alt.)

M. Main Walk, from Leigh to Penshurst (13½ km)

a. Circular Walk, from Leigh (18 km)

ai. Short Circular Walk, omitting Hoath Corner (8¾ km)

b. Alternative Walk, from Penshurst to Leigh (15½ km)

bi. Alternative Short Walk, omitting Hoath Corner (9 km)

c. Alternative Circular Walk, from Penshurst (12½ km)

Walk Directions

If you doing one of the Alternative Walks from Penshurst station, start at §C.

A. Leigh Station to Penshurst (3¾ km)

This section is the same as the start of Walk 1–15.

1. From either platform at Leigh station, take the path down to the road. Turn left and walk along it for 250m, **taking care as there is no pavement**. At Paul's Hill House **turn right** up a rough track which soon enters the Penshurst Place Estate. Where it comes to an open field, follow a grassy path across it to the far left-hand corner.
2. Continue in the same direction along a broad tree-lined avenue for 1 km, ignoring a footpath off to the right after 100m and another to the left after 500m. Eventually, where another footpath joins from the right, **turn left** downhill along another tree-lined avenue towards a lake, with Penshurst Place beyond.
3. After going through a gate, the right of way continues ahead for 150m and then turns half-right at a footpath signpost, but most walkers bear right onto a clear grassy path cutting off this corner. Go through a gate by the lifeless trunk of the veteran **Sidney Oak**¹ (with a plaque recording that it expired in 2016) and continue alongside a fence, with the lake and a line of clipped yew trees on the other side.

4. Follow the grassy path up to a kissing gate in the next fence. Go through this and head **S** across the parkland towards the right-hand side of **Penshurst Place**. After passing a cricket pitch on your left, cross the estate's driveway via two metal kissing gates. Continue towards the corner of the hedge-topped stone wall guarding the manor house and keep ahead with the wall on your left-hand side.
5. At the end of the wall, go through another kissing gate and follow a path through the churchyard of **St John the Baptist** church² (which is worth visiting; its entrance is on the south side). Leave the churchyard through an archway³ and go past the picturesque houses in **Leicester Square**⁴ to the B2176. **Turn right** onto the road to enter the village, soon coming to the **Leicester Arms Hotel** (a possible early lunch stop) on your left.

If you are doing a Short Walk, go to §K.

B. Penshurst to Salmans Manor (1¾ km)

6. Continue past the pub and **keep left** at the road junction in the centre of the village. Go along the B2188 for 200m, passing some attractive old buildings (note the horseshoe-shaped doorway⁵ in the garage). Immediately after passing the primary school, **turn right** into a lane (The Warren).
7. Stay on this lane for 600m, eventually passing a row of cottages. Where the lane ends, keep ahead down the right-hand edge of a large field. In the bottom corner go through a metal gate and veer right across the grass to a footbridge over the **River Eden**⁶. Cross this and continue on an enclosed path.
8. In 200m go through a metal kissing gate and turn right along a narrow fenced path. This takes you around two edges of a large field, with two more kissing gates along the way. After the second of these, do not continue on the broad grassy track ahead (with a tall hedge on its left), but **turn right** to head **NW** on another wide track.
9. The track soon comes to a tarmac lane by the buildings of Salmans Manor. Turn left briefly onto the lane, but instead of following it round to the right **keep ahead** through a wooden side gate to the right of a fieldgate to continue on a tree-lined track.

A short detour up the lane would give you a fine view of a large mill pond opposite a particularly attractive oast-house conversion.

Continue the directions at §E.

C. Penshurst Station to Wellers Town (3 km)

10. If you arrived on a train heading towards Tonbridge, cross the tracks by the footbridge to the westbound platform. Leave the station on its southern side and bear right through a small parking area towards a wooden fieldgate. Go through a metal side gate and bear right to go along a rough track on the edge of a field, with a hedgerow on your right. Continue in the same direction across the next field.
11. On the far side turn left along the field edge. In 150m **turn right** through a metal fieldgate, as indicated by a footpath marker. Go along the left-hand edge of a small field and over a stile beside another fieldgate into a much larger field. Continue along its left-hand edge for 100m, then **go over a stile on the left** to head **S** along the edge of another field, with a line of trees on your right. In 200m go through a gap and keep ahead, now with a wire fence on your right.
12. At the end of this field go through a small metal gate into another field. If you continue in the same direction you will come to a wide bridge over a stream in a gap in the trees, but a slightly shorter (and potentially less muddy) route is to head for the field corner to its right, where there is a footbridge over the stream. Either way, head **SW** for 300m across the next field (turning half-right if you crossed the wider bridge), skirting a projecting group of trees on the left.
13. On the far side go over a stile and turn left onto a lane to cross the **River Eden**⁶ on the attractive **Vexour Bridge**. On the other side the lane swings right but you **keep ahead** on the tarmac driveway to Vexour, signposted as a footpath. After climbing for 150m **turn right** by another signpost onto a short path through a belt of trees and up into the corner of a large field. Keep left and go along its edge, still climbing and passing the buildings of Vexour on your left.

14. In 150m **keep ahead** at a footpath signpost by a large oak tree (the path from the right is one of the return routes from Chiddingstone). In a further 150m, however, **turn right** (with no signpost) on a grassy strip towards the right-hand edge of some trees surrounding a few houses. On reaching these turn left to go alongside them for 60m, then **veer right** across a patch of grass onto a long straight driveway. Follow this out to a lane and turn left onto it.
15. You now have 600m of road walking, crossing a stream halfway along and climbing through Wellers Town. About 75m after passing the last house in this hamlet, **turn left** off the lane at a footpath sign, going over a stile to the right of a metal fieldgate into a field. Across the valley to the right you can see what looks like a long low building but is actually a *trompe-l'oeil*.
The back of some derelict farm buildings at Wat Stock have been crudely painted to resemble a manor house. If you are doing a Short Walk, go to §M.

D. Wellers Town to Salmans Manor (1¼ km)

16. Go across the grass, aiming a little to the left of the building and passing a few isolated trees in the field. As you go down the slope you will see a plank bridge over a ditch at the bottom. Go over this and through a metal kissing gate into a field.
17. Make your way straight up the field towards the left-hand end of the building. At the top go through a metal fieldgate and turn right onto a farm track, passing the derelict barns. At the far end of the barns **turn left** at a three-way bridleway junction, passing some cottages. The lane swings right and left between ponds in a wooded area, then continues between hedges. At the entrance to Abbotsmerry Barn it turns half-right and goes down a long slope.
18. At the bottom you come to the buildings of Salmans Manor, with a large mill pond opposite a particularly attractive oast-house conversion. Shortly afterwards, where the lane veers left, **turn right** through a wooden side gate onto a tree-lined track.

E. Salmans Manor to Hoath Corner (2 km)

19. Go along the track for 100m, with glimpses of the mill pond on your right. Just before a metal fieldgate leading into a large field, **turn left** through a kissing gate and climb a short flight of steps. This leads through another kissing gate into the field where you continue up its left-hand edge.
20. In 150m **turn left** through a wooden kissing gate into a small enclosure, leaving it by a metal kissing gate in the opposite corner. Bear right and go across a small fenced-in field to another gate. Go through this and continue along the field edge, passing **Harden Vineyard**⁷ on your left. At the end of the vineyard go over a stile and through some trees to a path T-junction. Turn right and follow the path round to the left.
21. In 100m you come to the edge of the wood and go over a stile into a more open area. Follow the enclosed tree-lined path gently uphill between two large fields. At the top cross a stile onto a path through a belt of trees, joining a driveway by the entrance to a house "Skipreed".
22. About 100m along this drive, opposite a house "Oakenden", **turn right** up a few steps in the earth bank and go over a stile with two footpath waymarkers. Ignore a kissing gate into a field and go along a fenced-in path on its left-hand edge. At the end go over another stile with two waymarkers and take the right-hand footpath, going through a small metal gate in the fence on the right.
23. Go along the right-hand side of a triangular strip of grassland between wire fences. In the far right-hand corner follow the path down through **Puckden Wood**. At the bottom the path curves right and then veers left to leave the wood. Climb a broad grassy path between fences and continue along a short driveway to a road junction in the hamlet of Hoath Corner. Follow the road round to the right to come to the suggested lunch stop, the **Rock Inn**.

F. Hoath Corner to Hill Hoath (2 km)

24. From the pub, return to the road junction and **fork right** onto the narrow lane heading **W**, signposted to Markbeece. In 150m **turn right** at a footpath sign to go down a fenced path between gardens. After crossing a stream the path continues along the right-hand edge of some rough grassland, heading **NW**.

25. Just before the far corner follow the path into the trees and down through a small wooded glen, then back up into the corner of a large field. Keep right, initially alongside a projecting piece of woodland. Where these trees end, bear slightly right across the field to find a path leading into a large wood on the far side.
26. The woodland path comes to a T-junction with footpath markers where you **turn right** onto a potentially very muddy path. The path bends left and later comes to a horse jump on the edge of the wood, with a sign welcoming walkers from the other direction to **Stock Wood**. Keep to the right of the horse jump to continue on a narrow path between hedges, with the field on the left laid out for show-jumping.
27. At the end go through a metal kissing gate and follow a well-trodden path through a long strip of grassland. At the far end go through another kissing gate, down a short slope and **turn right** onto an earth track. This leads into a short lane through the hamlet of Hill Hoath, where you pass an attractive low-lying house **Withers**⁸ on the left and reach a three-way road junction.
- If you are doing a version of the walk finishing at Leigh station, go to §J.*

G. Hill Hoath to Chiddingstone (1¼ km)

28. At the junction **keep left** to head **N** on this quiet country lane. In 300m you pass a corner of the grounds of **Chiddingstone Castle** on your right (with a locked gate), then in a further 400m come to its main driveway. An estate notice beside the drive states that there is no right of way through the grounds but nonetheless welcomes visitors, so you could take the route in [30] if they are open (there is an Honesty Box for donations).
- The grounds are not very large but include a tearoom, an attractive fishing lake and some pleasant woodland paths beyond the lawn at the back of the house.*

29. Route along public roads

Continue along the lane to a crossroads and **turn right**. In 250m this road bends right and crosses a stone bridge, with a view of the castle beyond the lake. In 150m there is a pedestrian entrance to the castle on the right (the exit for the alternative route) and the road turns sharply left.

30. Route via castle grounds

- a. **Turn sharp right** off the lane to go up the castle's driveway, which curves gently round to its main entrance. To go directly to its **Tea Room** without visiting the house and its collections, continue past the entrance and go all the way round the back of the house to find the gift shop and tearoom in the far corner.
- b. After exploring the grounds, return to the front of the house and turn right. Continue across an arm of the lake on a footbridge and follow the path as it curves round and leaves the grounds through a gate in the castle walls, emerging on a bend in the road.
31. Follow the road through **Chiddingstone**⁹. The **Castle Inn** is on the right, the first building on its picturesque village street. Opposite **St Mary's** church¹⁰ the **Tulip Tree** tearoom is up a passageway beside the Chiddingstone Stores. After passing the primary school a little further on you could make a short detour to see the **Chiding Stone**¹¹.

32. Detour to the Chiding Stone (+400m)

- **Turn right** onto a signposted path to the Chiding Stone, where there is an information panel. Return the same way.

If you are doing the Alternative Circular Walk, go to §I (to avoid having to retrace 1 km of your outward route from Penshurst station).

H. Chiddingstone to Penshurst Station via Hampkins Hill (2¾ km)

33. After the path to the Chiding Stone ignore public footpaths off to both sides and stay on the lane, climbing gently with good views of the Greensand Hills on your left. In 400m **fork right** in front of Triangle Oast (with Larkin's Farm¹² on your left). Almost immediately **turn left** at a footpath signpost onto a path heading **E** across the brow of Hampkins Hill, with fine views on both sides.
34. At the far end of the field, turn left along its edge. In the corner **veer right down a narrow path** through a belt of trees and turn left onto a tarmac driveway. At the bottom rejoin the minor road you left at Triangle Oast, crossing over the **River Eden** on the attractive **Vexour Bridge**. On the other side **bear right** off the road by a pair of footpath signposts, going over a stile to the left of a metal fieldgate.

35. Take the right-hand of two faint grassy paths to head **NE** across a large field, going past a projecting group of trees surrounding a loop of the river. At this point the grassy path splits again. The right-hand path heads towards a metal fieldgate where there is a wide bridge over a stream in the trees, but the correct (and potentially less muddy) route is the left-hand path, which reaches the trees 30m to the left where there is a footbridge over the stream.
36. Either way, head roughly **N** across the next field (turning half-left after crossing the footbridge, or straight ahead from the wider bridge) towards a gap in the trees on the far side, 125m away. Go through a small metal gate to the right of a fieldgate and continue along the left-hand edge of two fields for 400m, at first alongside a wire fence and then a line of trees. At the end of the second field go over a stile into a large field and **turn right** to head **E** along its edge.
37. In the field corner go over a stile beside a metal fieldgate. Go through the next gate and **turn left** along the edge of another field. About 100m before the railway embankment ahead, **turn right** by a footpath marker post to go straight across the field. On the far side go through a gap and continue along a rough track on the left-hand edge of a field. In the corner go through a metal side gate into the parking area for a timber yard.
38. Go across the parking area onto Platform 1 of Penshurst station. Trains to Redhill leave from this side; cross the footbridge to Platform 2 for a train to Tonbridge and/or the pub.
 - If you want some refreshment before the journey back the **Little Brown Jug** is on the other side of the B2027, directly opposite the station.

I. Chiddingstone to Penshurst Station via Beckett's Farm (3 km)

39. 50m after the path to the Chiding Stone, **turn left** off the lane onto a signposted footpath, the driveway to a house "Coachmans". At the end of the drive bear right as indicated in front of a wooden fieldgate onto a fenced path skirting around the house. On the far side follow the path gently downhill alongside a wood. Keep ahead where another footpath joins from the left to reach the **River Eden**, crossing it on a new wooden footbridge.
40. Shortly after crossing the river **go through a metal gate on the right** into the corner of a field. Turn left to continue in your previous direction along its edge, veering slightly away from it at the end to go through a gap into the bottom of a sloping field. Make your way over to its right-hand edge and go up it to the top corner. After going through a gap in the trees make a similar manoeuvre in the next field to continue along its right-hand edge, heading **N**.
41. In the far right-hand corner go over a stile to the right of an old metal gate and **bear right** across a field which slopes downhill, aiming just to the right of a house which comes into view. Go over a stile at the bottom and turn right to follow its driveway out to a minor road. Turn left onto the road, then in 60m **turn right** onto a signposted footpath, heading **E** along a strip of grassland.
42. At the end of the hedge on your left **bear left** towards the field corner. Go through a metal fieldgate in this potentially muddy area and veer right up a slope to continue along the right-hand edge of a field, heading **E** again towards the buildings of Beckett's Farm. Go over a stile in the field corner and veer left briefly onto the driveway leading away from the farm, then **immediately go over a stile on the right** into a large field.
43. Go alongside the boundary of the farm buildings for 40m, then **turn half-right** across a patch of rough ground (with no clear path) to find a stile in the hedge 100m away, to the left of a large barn in the next field. Go over this stile and continue along the right-hand edge of a large field for 300m, heading **E**.
44. In the field corner go over a stile beside a metal fieldgate. Go through the next gate and **turn left** along the edge of another field. About 100m before the railway embankment ahead, **turn right** by a footpath marker post to go straight across the field. On the far side go through a gap and continue along a rough track on the left-hand edge of a field. In the corner go through a metal side gate into the parking area for a timber yard.
45. Go across the parking area onto Platform 1 of Penshurst station. Trains to Redhill leave from this side; cross the footbridge to Platform 2 for a train to Tonbridge and/or the pub.
 - If you want some refreshment before the journey back the **Little Brown Jug** is on the other side of the B2027, directly opposite the station.

J. Hill Hoath to Penshurst (3½ km)

46. At the junction **turn right**, now on the **Eden Valley Walk**¹³ (EVW). After passing some more houses **keep left** where the lane opens out, ignoring another footpath ahead past some stables. Head **E** along a farm track and take a surfaced path to the left of some new buildings. Continue on a grassy path and **fork right** where this splits, onto a clear straight path heading **SE**.
47. In 300m, soon after a narrow path joins from the left, go through a kissing gate into a wood. Continue along the attractive woodland path for 400m, climbing gently at first. At the far end go over a stile to emerge on a minor road. Cross the road and continue on a bridleway just off to the right, going through a metal fieldgate to head diagonally across a field on a grassy path. On the far side leave it through another gate and turn left onto a lane.
At a fieldgate on the left after 100m there is a view of the painted barn at Wat Stock (the trompe-l'oeil seen earlier on the Alternative Walk).
48. The lane bends to the left round a large pond. In a further 50m **keep ahead** on an unsurfaced track past some derelict farm buildings, briefly reversing the outward route of the Alternative Walk.
49. You now follow this potentially muddy track (the old coach road) all the way down to Penshurst, with occasional views over the Eden Valley on your left and a huge array of polytunnels behind the line of trees on your right. After a long descent the driveway from Salmans Farms joins from the right and you cross the **River Eden** on a brick bridge.
50. In a further 500m you reach the B2176, with **Penshurst Place** visible in the grounds ahead. Turn right onto the road to enter the village. In 150m you come to the **Fir Tree House** tearoom on your right, the first of several possible tea places. The walk route continues round to the left at the road junction in the centre of the village, where the **Leicester Arms Hotel** is on your right.
- The Porcupine Pantry is 600m further on, in the next section.
- If you are doing an Alternative Walk, go to §N.*

K. Penshurst to Ensfield Bridge (2¾ km)

The remainder of the walk is essentially the same as Walk 1–19.

51. Head **E** out of the village on the B2176, passing the picturesque houses in **Leicester Square**⁴. Where the road turns right **keep ahead** through a stone and brick archway, now on both the **Eden Valley Walk**¹³ (EVW) and Cycle Route 12 (CR 12).
52. As you go along the driveway a locked gate in the high brick wall on your left affords you a glimpse of the formal gardens. At the end of the wall you pass the large car park for **Penshurst Place** on the left.
- The **Porcupine Pantry** is at the back of this car park. If you are stopping there for refreshment, return to this lane afterwards.
53. Continue along the driveway for 400m (shown as a private road to Well Place, but still a public footpath). Shortly before it starts to ascend, **turn left** through a squeeze gate into a field, leaving CR 12. Go along the field edge parallel to the road, then through another squeeze gate. Follow a broad grassy path diagonally up the next field (with a fine view back to Penshurst Place).
54. At the top go through a squeeze gate to the right of a fieldgate and head **NE** along a track. In 80m keep ahead where it joins a concrete lane, rejoining CR 12 for the next 600m to Killick's Bank. After passing this isolated house **veer right** across a lane junction and go through a squeeze gate (or over a nearby stile) into a field.
55. Follow a faint grassy path downhill, heading **E**. At the bottom of the field cross a wooden bridge over a backwater and go across the grass to the **River Medway**. Turn left and walk along the riverbank to **Ensfield Bridge**. Turn right onto the road to cross over the river, rejoining CR 12 again.

L. Ensfield Bridge to Leigh Station (2¼ km)

56. On the other side of the bridge **turn left** and follow the cycle route for about 400m. Where it bends left down a slope **go through a wooden squeeze gate in the fence** to maintain direction near the left-hand edge of a large field.

57. On the far side go over a stile and a ditch into another field. **Bear left** across its corner towards a nearby gate and go through it onto a short path through some trees to the cycle route you left earlier. **Keep ahead** at this path crossing (leaving the EVW, which continues towards Tonbridge along the **Straight Mile**¹⁴ to the right).
58. Cross a bridge over a backwater and fork left on the main path, which soon comes to a substantial bridge over the main river. Cross this and go straight across a large field, heading **NW**.
59. On the far side go through a wide gap in the hedge and continue along the left-hand side of the next field, aiming for a broad track which you can see going over the embankment ahead. Leave the field through a kissing gate to join this track, which takes you through a short tunnel under the Redhill–Tonbridge railway line¹⁵.
60. Stay on the track for 100m, up a slope. Where it swings round to the left **veer right** to continue in the same direction along a residential street (Green View Avenue). This leads to Leigh's village green, with **St Mary's** church¹⁶ visible on a knoll on the far side. Turn left and make your way around two sides of the green to the B2027.
61. Turn left and go along the village High Street for 250m, passing some attractive almshouses, the Village Stores and a restored water pump. The last refreshment place before Leigh station is the **Fleur De Lis** pub at the junction with a side road (Lower Green).
62. To complete the walk **turn left** into Lower Green and go along it for 225m to the bridge under the railway line. There are two tarmac paths leading up to the platforms of Leigh station (with no footbridge linking them). Platform 2 is for trains to Tonbridge; go under the bridge and up to Platform 1 for a train to Redhill.

M. Wellers Town to Penshurst (2¼ km)

63. Go across the grass, aiming a little to the left of the building and passing a few isolated trees in the field. As you go down the slope you will see a plank bridge over a ditch at the bottom. Go over this and through a metal kissing gate into a field.
64. **Turn left** along the bottom of the field. In the corner go through a belt of trees via a couple of stiles and turn half-right to go gently uphill across a field. In the middle of the far side two more stiles and a footbridge take you into another field where you follow a faint grassy path slanting up the slope, past a projecting group of trees to the top of the field. Go over a stile in the trees and turn left onto a broad track, joining the **Eden Valley Walk**¹³ (EVW).
65. You now follow this potentially muddy track (the old coach road) all the way down to Penshurst, with occasional views over the Eden Valley on your left and a huge array of polytunnels behind the line of trees on your right. After a long descent the driveway from Salmans Farms joins from the right and you cross the **River Eden** on a brick bridge.
66. In 150m you pass the **Fir Tree House** tearoom on your right (which is usually closed at lunchtime). Keep left at the road junction in the centre of the village to come to the suggested lunch stop on your right, the **Leicester Arms Hotel**.

N. Penshurst to Leigh Station *direct* (3¾ km)

67. Head **E** out of the village on the B2176, passing the picturesque houses in **Leicester Square**⁴. Where the road turns right **keep ahead** through a stone and brick archway, now on both the **Eden Valley Walk**¹³ (EVW) and Cycle Route 12 (CR 12).
68. As you go along the driveway a locked gate in the high brick wall on your left affords you a glimpse of the formal gardens. At the end of the wall you pass the large car park for **Penshurst Place** on the left.
 - The **Porcupine Pantry** is at the back of this car park. If you are stopping there for refreshment, return to this lane afterwards.
69. Continue along the driveway for 400m (shown as a private road to Well Place, but still a public footpath). Shortly before it starts to ascend, **turn left** through a squeeze gate into a field, leaving CR 12. Go along the field edge parallel to the road, then through another squeeze gate. Follow a broad grassy path diagonally up the next field (with a fine view back to Penshurst Place).

70. At the top **veer left** in front of a fieldgate, leaving the main branch of the EVW. Follow a grassy path going along the right-hand edge of several large fields (interrupted by a short stretch through a wood) for almost 1 km. At the end of the last field bear right onto a broad tree-lined avenue heading **NE**. *The final 1½ km is the same as the start of Walk 1–15 (in reverse).*
71. At the end of the long avenue carry on in the same direction across an open field, then down a rough track to a road. Turn left onto the road, **taking care as there is no pavement**.
72. Follow the road downhill for 250m to the bridge under the Redhill–Tonbridge railway line¹⁵. There are two tarmac paths leading up to the platforms of Leigh station (with no footbridge linking them). Platform 1 is for trains to Redhill; go under the bridge and up to Platform 2 for a train to Tonbridge.
 - If you want some refreshment before the journey back the **Fleur De Lis** pub is 225m further along the road, where it meets the B2027.

Walk Notes

1. The **Sidney Oak** was reputedly planted in 1554 at the birth of Sir Philip Sidney, but is now believed to be many hundreds of years older. Acorns from this ancient tree have been taken all over the world, and cloned saplings planted around the Penshurst estate.
2. The Sidney Chapel in **St John the Baptist, Penshurst** contains many memorials and a fine armorial ceiling, restored in 1966. By the side altar is the **Luke Tapestry** (in Greek), made by Penshurst's former village doctor: it honours the partnership between medical science and Christianity.
3. "My Flesh also shall rest in Hope", inscribed above the archway leading out of Penshurst churchyard into Leicester Square, is from **Psalm 16:9**.
4. Some of the half-timbered and tile-hung houses around **Leicester Square** (named after a favourite of Elizabeth I) are Victorian imitations, like the post office house of 1850.
5. The large horseshoe-shaped doorway in the shop/garage is a relic of its days as the **village smithy**.
6. The source of the **River Eden** is in the Titsey estate, 2 km north-east of Oxted on the slopes of the North Downs. It flows into the River Medway near Penshurst.
7. **Harden Vineyard** grows Regent grapes which are used to make a rosé wine.
8. **Withers** is a 15thC timber-framed hall house, with the bricks on the ground floor being added in the 19thC. The side facing the lane is actually the rear of the house.
9. **Chiddingstone** remains largely unspoilt because the Streatfeild family sold many of the buildings to the National Trust in 1939. It has been used as a location in period films such as *A Room with a View*.
10. **St Mary, Chiddingstone** contains many memorials to the Streatfeild family. On display is a **Vinegar Bible** of 1717, so called because in St Luke's Gospel, Chapter 20, "The parable of the vineyard" is written as "The parable of the vinegar"!
11. The **Chiding Stone** is a large sandstone boulder where wrongdoers were supposedly told off (chided) by the other villagers.
12. The buildings at Larkin's Farm include **Larkin's Brewery**, which was established in 1986 and moved to the family's farm a few years later. Chiddingstone Cider is also produced here.
13. The **Eden Valley Walk** runs for 24 km, linking the Vanguard Way to the west of Edenbridge with the Wealdway and the Medway Valley Walk in Tonbridge. There are few rights of way alongside the River Eden itself and from Penshurst much of the route actually follows the River Medway.
14. The **Straight Mile** was dug in 1830, an unsuccessful attempt to straighten out the meanders of the River Medway. The canal never filled with water and the project was abandoned.
15. The **Redhill–Tonbridge railway line** opened in 1842 as part of the main line between London and Dover, and retained that status until the direct line via Sevenoaks opened in 1868.
16. **St Mary, Leigh** dates from the 13thC, although there were earlier churches on this hilltop site. In the 19thC two parties were responsible for different parts of the building and each employed their own architect for its restoration, with the result that the chancel now has a different type of stone from the rest of the church.
